

Mid-East District Advisor Jeannie Greenfield

Jeannie and her husband Doug live in Stoneboro, PA, and have been ITC members since 2012.

She is the proud owner of two (2) T-Birds - a '56 and an '03. She and her husband, Doug, and are 'Ford' fans - he is a Mustang Man.

Jeannie obtained her '03 in 2011. Aside from needing some TLC and several sessions of extensive polishing, it was ready to drive and enjoy.

She acquired her '56 in 2017. It had been garaged for several years, still had many original features and parts but needed a general restoration. Over the years, Doug has restored many of his own cars and he probably would have willingly taken on this one but Jeannie wanted to tackle it herself. So, Jeannie took on the job while Doug quietly stayed in the background guiding, advising and suggesting. It's been a wonderful learning experience for Jeannie and it's still ongoing. The '56 is now very street worthy and fun to drive.

Jeannie retired from 25 years of service with the Commonwealth of PA in law enforcement and corrections. Her present part-time activities include being a township auditor and a treasurer for a local garden club and railroad/caboose restoration project.
